CLAIMS 1-22 ARE PRESENTED FOR EXAMINATION

Applicant's election of © phosphoramidatyl deoxyuridine compounds in Paper No. 10 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a))

.Relaying on the elections made by applicant in papers 7 and 10, claims 1, 4, 10, 11 and 13 have been examined for the treatment of rheumatois arthritis with a phosphoramidatyl deoxyuridine .

Claims 2, 3, 5-9, 12 and 14-22 are withdrawn from consideration.

OBJECTION TO THE SPECIFICATION

The disclosure is objected to because of the following informalities: The definition of R⁴ at page 14, paragraph 0058 appears to be misplaced since there is no previous reference to this radical. Correction or a clearer description is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 4, 10, 11 and 13 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for phosphoramidatyl deoxyuridine compounds which fall within the scope of NB 1011, does not reasonably provide enablement for all phosphoramidatyl deoxyuridine compounds. The specification does not enable any person skilled in the art to which it pertains, or with which it is most

Art Unit: 1617

nearly connected, to use the invention commensurate in scope with these claims.

Applicant admits at page 1, paragraph 0004 to page 2, paragraph 0005 that various biological pathways may be inactivated by tumor suppressing drugs. Applicant's have provided exemplary evidence that compounds within the scope of NB 1011 provide such an effect when treating rheumatoid arthritis.

Therefor, applicants generic claim to all phosphoramidatyl deoxyuridine is deemed to be beyond the scope of the enabled disclosure of the specification.

None of the claims are allowed.
